Serial No. 2308

**APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

Date of first receipt and filing in State Engineer's office JAN-12 1912
Returned to applicant for correction _____
Corrected application filed _____

The undersigned Pacific Livestock Company, a corporation
having its principal place of business in the City
of San Francisco, County of San Francisco,

State of California, hereby make s application for
permission to appropriate the public waters of the State of Nevada,
as hereinafter stated. (If applicant is a corporation give date and
place of incorporation) January 23d, 1888, State of California.

1. The source of the proposed appropriation is Walker River
Name of stream, lake, or other source.
2. The amount of water applied for is fifty-five (55) second-feet.
One second-foot equals 40 miners' inches.
3. The water to be used for irrigation, watering of stock and domestic purposes.
Irrigation, power, mining, manufacturing, domestic, or other use.
4. The water is to be diverted from its source at the following point: The head of the Joggles Ditch situated near the north line
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.
of the Northwest quarter of southwest quarter, section thirty-six (36), township fourteen (14) north, range twenty-five (25) east,
M.D.B & M.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is 3675
- (b) Description of land to be irrigated (See supplemental sheet, (1))
Describe by legal subdivisions, or if on unsurveyed land it should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

- (c) Irrigation will begin about January first and end about December thirty-first, of each year.
Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horse power.

- (e) Works to be located _____

Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.

- (f) Point of return of water to stream _____

Describe in same manner as point of diversion.

- (g) Remarks _____

DESCRIPTION OF PROPOSED WORKS

All said water is to be diverted by means of a wooden weir now

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water is to be across said Walker River and into and through ditches which are stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

already constructed and then distributed over said land by means of lateral ditches, checks and levees. None of said land is the land proved to have been irrigated in the case of Pacific Live Stock Company against Thomas B. Rickey, et al., for which the applicant has been held entitled to 181.84 second feet of water, but this appropriation is in addition thereto

5. Estimated cost of works twenty-two hundred dollars (\$2200)

6. Estimated time required to construct works two (2) years

The land to be irrigated is the land in white in the sub-

7. Remarks. divisions above mentioned delineated on the map filed with and made a part of this application, and the new ditches to be constructed are indicated in red on said map.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the source and is for flood and surplus water only. The applicant shall, within ninety-(90)-days from the date of approval herewith, file with the State Engineer a map showing the ditch system, land proposed to be irrigated, etc., which map must show specifically the areas awarded a water right in the Thurtell findings, the same being the report of the Master in Chancery to the Circuit Court of the United States, Ninth Circuit, District of Nevada, in the case of the Pacific Live Stock Company vs. T. B. Rickey, et al. The proof of beneficial use of water must also indicate the areas awarded a water right in the Thurtell findings above mentioned, so that a duplication will not occur in issuing the final certificate hereunder.

A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.

Work must be prosecuted with reasonable diligence and be completed on or before June 23, 1919.

Application of water to beneficial use shall be made on or before June 23, 1923.

Proof of the application of water to beneficial use must be filed with the State Engineer on or before July 23, 1923.

WITNESS MY HAND AND SEAL this 23rd day of April, 1917.

Proof of labor filed MAY 15 1917

Map filed NOV 19 1918

W.M. Kearney
State Engineer

See permit No. 5924 which has been granted
to change this point of diversion. Filing of
further proofs hereunder exonerated by reason
thereof.
